Corning optical cables unleash the Brilliance of Light™ and enable high-speed Thunderbolt™ 3 connections over longer distances. They are thin, lightweight, and remarkably durable while supporting high-performance data devices and higher resolution displays.

• 40 Gbps Thunderbolt™ 3
• Flippable and reversible – dual protocol (PCI Express and DisplayPort)
• Daisy chain up to six Thunderbolt devices
• Four lanes PCI Express Gen 3
• All dielectric cables provide improved galvanic isolation
• Robust cable design with improved abrasion resistance

Applications
• All-new thermal shutdown – protects internal components from long-term exposure to elevated temperatures
• Supports one 5k or two 4k (4096 x 2160) 30bbp @ 60 Hz displays with compatible Thunderbolt 3 hardware

Product information

- No driver software required
- Lowest latency for PCI Express audio

For use with self-powered peripherals only
