Bespoke premium reference EBLT drive belt.

The Rega Reference EBLT drive belt is the culmination of many years of research and development work as well as advanced tool testing.
The reference EBLT is the most accurate drive belt we have ever made.
It now comes standard on all Planar 8 and Planar 10 turntable models.
The reference belt is suitable for all Rega turntables but is highly recommended for the Planar 6 and Planar 3 with the Rega Neo TT power supply.
