This Phase One Sync Cable for IQ4 Backs (12 Pin) is a longer (15.7′) coiled cable that connects your Phase One IQ4 digital back to your camera or lens’s PC sync terminal. This cable is used to connect a digital back in conjunction with a view camera. The cable has coiled flexibility for extended use. The digital back should be set to 2-shot mode for use.
*This is the 12 pin cable and will only work with the IQ4 series digital backs.
