Passive radiator bass system with active high-pass filtering (QB6 alignment)| Move and Groove together are a modular, active monitor system with a frequency range of 25 Hz - 40 kHz (-10 dB). The integrated active crossover separates the loudspeaker systems at 100 Hz and extends the frequency response in the bass down two octaves. This means that the bass is particularly low in distortion and controlled Amplifier power: 60Wp for Move, 400Wp for the bass | Frequency

response: 30 Hz -3 dB, 25 Hz -10 dB I Purely analog circuit technology without A/D and D/A converters, and without DSP | Playback completely free of digital artifacts | Level in the bass range adjustable in 1 dB steps: +4 dB. -4dB.
