The optional 907X optical viewfinder (OVF) is reminiscent of Hasselblad's SWC viewfinder and allows easy shooting at eye level. In combination with the 907X 50C, it can be easily mounted on the camera body using a "cold shoe" adapter. The optical viewfinder has a wide field of view and markings for XCD 21, 30 and 45 mm as well as a center cross for an autofocus point.
