The XCD 30mm is the strongest wide-angle lens for the X1D. Its focal length corresponds to a 24mm for 35mm film and makes it the perfect lens for landscapes, reportage and travel.

This lens has a horizontal angle of view of 71° with high imaging performance and a compact design. As a special feature,

Product information

the lens also maintains its high performance at close range.

As a representative of the lens series for the X system, its low weight and compact design make it a perfect fit for the slim housing of the X1D.
