This short telephoto lens has a focal length of 135mm and is comparable to a 105mm full-frame lens, making it ideal for portrait and landscape photography. It has a minimum focusing distance of 1m (f/5.8 and f/3.4 reproduction ratio) and an aperture range of 2.8-32. In combination with the special X1.7 converter, the lens focal length is increased to 230mm with a full-frame equivalence of 178mm and an aperture range of 4.8-32. It is equipped with an integrated leaf shutter that offers exposure times from 60 minutes to 1/2000s with full flash synchronization.
