Experience the wide view and immortalize the exciting interplay of light and shadow. The XCD 2.5/25V has a wide-angle focal length of 25 mm and a maximum aperture of f/2.5. This lens continues Hasselblad's tradition of outstanding optical performance and creates unique shots of nighttime cityscapes, starry skies and interior portraits. It combines the classic design of the V series with intuitive, user-friendly functionality and exudes elegance in both its aesthetics and its operation.

Product information

Broaden your horizons, capture the play of light and shadow

The wide-angle view with an equivalent focal length of 20 mm captures a variety of environmental and subject details and offers ample room for composition and expression. Thanks to the large aperture of f/2.5 and Hasselblad's consistently excellent optical performance, the XCD 2.5/25V lens captures rich light and shadow details in its frame. This way, hidden wonders can be captured even at dusk or after dark.
