Hasselblad bridges its legacy and its future with the XV Lens Adapter, providing compatibility for both X System and 907X cameras with V System lenses. The XV Lens Adapter supports Hasselblad’s full line of C, CB, CF, CFI, CFE, F and FE lenses; each lens functions solely with the use of the X System and 907X cameras’ electronic shutter feature. The addition of the XV Lens Adapter to X System and 907X accessories adds over sixty lenses with focal lengths ranging from 30 to 500mm to the lens lineup.
