The XH Converter 0.8 offers Hasselblad photographers a new way to unlock a whole range of new H System lens features. The XH Converter 0.8 is for use with HC/HCD lenses attached to an X System or 907X camera. The converter reduces the focal length of the lens by a factor of x0.8, thereby achieving a wider field of view and improving the maximum aperture. In addition, the XH Converter 0.8 improves the lens performance in terms of contrast and visible sharpness across the entire
