The HCD 24mm lens is an ultra-wide angle lens with an advanced optical design for excellent performance and extreme corner-to-corner sharpness. With a viewing angle of 104°, it is currently the most extreme wide-angle lens for medium format. This ultra-wide-angle lens offers excellent performance across the entire distance range. With a viewing angle of 104 degrees, the widest of our current lens series, shots can be taken in cramped interiors or wide landscapes.
