Product information

The first member of our new product family is a complete music system in a single housing. Simply connect the speakers and enjoy!

Versatility is key: the COMBO supports radio, podcasts, streaming services, UPnP/DLNA, CDs (with an external drive), TV connections via HDMI and functions as a headphone amplifier as well as a powerful power amplifier. Together with our new MOVE mini desktop speaker, it delivers true high-end audio in the smallest of spaces!

Technology at its best: Enjoy streaming in the highest studio quality, supported by a leading D/A converter concept with DSD re-sampling. A carefully designed PCB layout with four layers and powerful Class A-D amplifiers round off the package.
