The MK7 version of REGA's best-selling amplifier is the most technologically advanced and feature-rich Brio variant Rega has ever developed. Our engineering team has redesigned the entire Brio circuitry to optimise performance and minimise

Product information

distortion.

Housed in a compact, bespoke half-width aluminium chassis, the Brio MK7 delivers an impressive 50W per channel into 8Ω and 72W per channel into 6Ω, providing enough power to drive even the most demanding loudspeakers with ease.

(Note: The power consumption stated refers to the maximum power consumption at full audio output. In normal daily use, the...

Key Features:
