The LaCie® d2TM Professional is a powerful external desktop hard drive for creative professionals who need reliable capacity and high speeds. Equipped with an enterprise-class Seagate IronWolf® Pro hard drive, it offers industry-leading

reliability and performance, making it ideal for tasks such as video editing, photography workflows and archiving. Compatible with USB-C and USB 3.2, the d2 Professional works seamlessly with Mac® and Windows® systems. It offers up to 30 TB of storage in a sleek, all-aluminium enclosure that ensures durability, quiet operation, and efficient heat dissipation. Designed for intensive workloads, the d2 is the desktop storage solution you can rely on.
