Professional Calibration - From Capture to Print

- Replaces the X-Rite i1Studio (EOSTUDIO)
- The user-friendly, all-in-one Calibrate PROFILER software offers intuitive and professional calibration for monitors, projectors, cameras, scanners, and printers. It's the ideal solution for anyone seeking perfect match between on-screen display and printed output.
- Precise Printer Profiling: Our advanced, iterative profiling technology ensures the highest accuracy for every printer type. It delivers professional-quality results with smooth tonal gradations, precise highlights, and richly detailed shadows—and supports both RGB and CMYK printers.
- Create Custom Camera and Scanner Profiles: With supported ColorChecker targets*, you can create precise profiles for cameras and scanners—for exceptional color accuracy under all lighting conditions. Thanks to automatic target detection

Product information

and advanced profiling technology, you minimize color variations and achieve consistent, true-to-life results across different cameras and reflective scanners.

- Compatible with Mac and Windows operating systems
- Not sure which calibrator is right for you? [Click here](#) for a helpful comparison chart.
