Color Control for Photos - From Capture to Editing

• A color-accurate ColorChecker standard target with 24 color patches for all macro photography.

• Ideal for creating color separations in small or close-up shots.

• The target works seamlessly with Calibrite PROFILER software, which includes the camera calibration module. This provides unparalleled color accuracy, automatic target detection for effortless, custom camera profiles, and a user-friendly profile manager.

• Not sure which color target is right for you? Click here for a helpful comparison chart.

• Replaces the X-Rite ColorChecker Nano (MSCCEXTMN)
