Color Control for Photos - From Capture to Edit

• An essential tool for every photographer working in various lighting conditions

• Uses the standard ColorChecker target with 24 color patches, a creative optimization target, and two gray cards (12% & 18% gray)

• The target works seamlessly with Calibrite PROFILER software, which includes the camera calibration module. This provides unparalleled color accuracy, automatic target detection for effortless, custom camera profiles for photographers, and a user-friendly profile manager.

• Ideal for photographers of all experience levels

• Replaces the X-Rite ColorChecker Passport 2 (MSCCPP-B)
