Product information

• Metallic gray finish
• Black buttons and dials
• Leather with a diamond pattern
• Red focus and focal length scales
(engraved)

The Leica Q3 is the 3rd generation of the successful Leica Q
Series with the new Maestro IV processor.
• A new BSI CMOS sensor with triple resolution technology (60|36|18 MP) delivers excellent image quality for photo and video productions in combination with the fixed focal length of the Summilux 1:1.7/28 ASPH lens and integrated macro mode .
• With the new tiltable 3-inch high-res touchscreen, the Q3 opens up unusual perspectives and creates even more creative freedom when taking photos and films. The motif is displayed unadulterated and crystal clear via the likewise new OLED viewfinder with 5.76 MP.
• The camera is equipped with advanced Multiple Input Multiple Output (MIMO) technology, so that the transmission speed to the Leica FOTOS App has been increased up to 10 times compared to the previous model.
• The first camera that enables wireless charging using the Leica Charging Pad in combination with the handle, which is also available as an option.

Scope of delivery:
