The SanDisk Extreme PRO 400 GB flash memory card was specifically developed to meet the demanding requirements of the photo and video industry. With read speeds of 3,700 MB/s and write speeds of 3,500 MB/s, it enables rapid data transfer and efficient workflow management. Supporting resolutions up to 12K, the card is ideal for creative professionals who require high-performance storage for their work. Features such as drop protection and bend resistance ensure durability and consistent performance.
Whether capturing high-resolution video in 4K, 6K, or even 8K, this card delivers reliable storage solutions that professionals can count on. The CFexpress 4.0 Type B form factor ensures compatibility with a wide range of devices, offering versatility across various shooting environments. With this memory card, photographers and videographers can focus entirely on their creativity without worrying about performance limitations.
